## Introduction

Enterprise Home Screen (EHS) is a replacement application launcher for Symbol Android devices, designed to allow only specified applications to be launched.

## Description

- Support for TC75 KitKat version 4.4
- Support for MC40 KitKat version 4.4
- Support for MC18 KitKat version 4.4
- Support for MC92 KitKat version 4.4
- This version of EHS uses a new logo and icon.
- EHS Menu can now be accessed using the Action Bar as well as the menu button on the device.

## UPDATE1

- The purpose of this update is to support StageNow and MDM operations. **No new features are included in this update.** The contents of this update include the following:
  - EHS\_L\_020104.apk - Install this APK if the device is:
    - A Jelly Bean device
    - OR
    - TC70 KitKat BSP version 112414
  - EHS\_R\_020104.apk - Install this APK if the device is:
    - A KitKat device except TC70 KitKat BSP version 112414
  - EHS\_020104.apk - Both the files listed above are embedded in this Installer APK. This APK determines the model and OS of the device and installs the appropriate EHS APK.

NOTE: Install only one of the above APKs.

## Contents

1. EHS\_020104.zip
2. EHS\_020104\_UPDATE1.zip

## Device Compatibility

This software release has been approved for use with the following Android devices.
