3. New/Major Features or Fixes	2
4. Software Installation and Upgrade Instructions.....	2
5. Usage Notes.....	2
6. Technical Publications.....	2

Overview

This document comprises the release notes associated with the MPact NFC Toolbox Service Application for Android.

These notes are intended as a highlight of the major updates or changes to the code since the prior release and include some additional release history. This document is not a list of software-based features, an archive of every code change, a software test report, or qualification report. This document is provided for information purposes only and is subject to change without notice.

1. Current Release Summary

The following are the main details of the current release:

Release Type	NFC Toolbox Service Application for Android
FW Number:	Release 1.0.0
Release Date:	October 2023

Highlighted Code Updates: Initial product release

2. Hardware Platform Support and Hardware Notes

This application is compatible with Android versions 8 or later:

- The Android device must have NFC capability.

- The Android device need NOT have internet access.
- All applications for access to data and device functions must be accepted.
- This NFC Toolbox Service application is intended only for use with Zebra IoT BLE NFC beacons.
- This application is provided as-is and may not be compatible with each hardware and software combination. We only test a sample of hardware devices and suspect not all hardware platforms will be compatible with this application.
- We performed testing with Android 8.1, 9, 10, 11, and 13.

3. New/Major Features or Fixes

This is the initial release and posting of the application.

4. Software Installation and Upgrade Instructions

Zebra support is available for customers with valid support entitlements going back as far as the prior and one before that production release code (“R versions”).

Important Note

Downloading and installing this software application is your explicit acceptance of the software as-is and your agreement that Zebra is not liable for any damages of any type resulting from installation and / or attempted usage of this application.

5. Usage Notes

The following pictures show how and when to use the application. Please simply use this software version in place of the one listed in the presentation:

6. Technical Publications

Please refer to the Manuals portion of the Zebra Bluetooth Low Energy (BLE) Devices Support section under the Location Solutions portion of the Support and Downloads tab of Zebra.com for

the associated user guide, Shema document and other technical publications to help with the configuration and operation of the IoT Beacons.

--- END ---
