WFC Provisioning Manager Version 3.1.23302
Release Notes – Jan 2024

Highlights

Release v3.1.23302 of the WFC Provisioning Manager is now available for customer access. This release contains the following features.

- Notify users through email when the License Utilization exceeds the threshold
- Maintenance updates

New in WFC Provisioning Manager v3.1.23302

Notify users through email when the License Utilization exceeds the threshold

This feature enables email notifications to one or more configured emails when the license utilization exceeds the threshold. The Threshold and email configuration is provided in the customer configuration. The utilization check is done periodically once in a day. Contact Zebra support to make any changes to the configuration.

Resolved Issues

- None

Usage Notes

- The Provisioning Manager URL is https://wfc-provisioning1.pttpro.zebra.com/admin/login. To request portal access to the WFC Provisioning Manager, contact Zebra support.
- Bootstrapping is supported with the following client versions:

Client	First GA Release with bootstrapping
WFC Voice	9.0.20207
PTT Pro Android	3.3.10107
Profile Client	2.0.20207

- Feature-based licensing as provided by the Provisioning Manager is first supported in WFC Voice v9.0.20306. The customer may view the licensed devices in the Provisioning Manager portal, in the Licensing/Assigned tab.
- The customer may release standard licenses from specific devices by obsoleting them in the Extension Manager portal, in the Portal/Devices tab.

- **❗ Important**: Note that premium licenses can only be used for premium PBXs. Standard PBXs require standard licenses. Customer with premium licenses should ensure that their devices are all configured to use premium PBXs.

- Licensing notes:
  - Existing 9.x customers upgrading to WFC Voice v9.0.20306 must contact Zebra to enable the migration of their current licenses to AID-free licensing.
  - Licenses for the WFC Voice Client 9.x may include a 30-day grace period. The client will display the expiration date including the 30-day grace period, but any renewals will be based off the actual expiration date. Refer to your entitlement email from Zebra Onboarding for your actual expiration date.

- 3rd party device support for stand-alone clients requires the following client versions:
  - WFC-Voice v9.0.22308 or above (WFC Voice is not supported on iOS devices)
  - PTT Pro Android v3.3.10197 or above
  - PTT Pro iOS v1.0.11086 or above

  Refer to PFM release notes for client versions supporting 3rd party devices using PFM deployments.

Known Issues

- None
